Supporting workflow modules

11. Billing, HR & Reports
Enterprise operations modules

12. Technical Architecture
Tech stack, security, API summary

13. Roadmap & Next Steps
Upcoming features and enhancements

SECTION 01

Executive Summary

Platform capabilities and competitive positioning

15+	6	50+	R95
Portal Modules	AI Features	API Endpoints	Starting Price/mo

Platform Modules

- ✅ Dashboard with real-time stats & quick actions
- ✅ Case Management — full lifecycle with archiving
- ✅ AI Intake — GPT-powered legal analysis & case creation
- ✅ Document Versioning with check-in/out & approval workflow
- ✅ Leads Pipeline with SLA tracking & conversion
- ✅ Task Management linked to cases
- ✅ Calendar with court date tracking
- ✅ Internal Messaging system
- ✅ Knowledge Base for legal research
- ✅ HR Module & Staff Management
- ✅ Billing & Time Tracking
- ✅ Reports & Analytics
- ✅ Role-Based Access Control (12+ roles)

Competitive Advantages

🤖 AI-Powered Legal Intake

GPT-4o analyses problems in real-time, categorises matters, suggests legislation & next steps. Auto-creates cases. No competitor offers this.

📋 Document Version Control

Full version history, check-in/out locking, 4-level approval workflow. Enterprise-grade document management.

🗄️ Case Archiving

Closed cases auto-archive after 30 days. Archived cases become read-only for compliance. Full audit trail preserved.

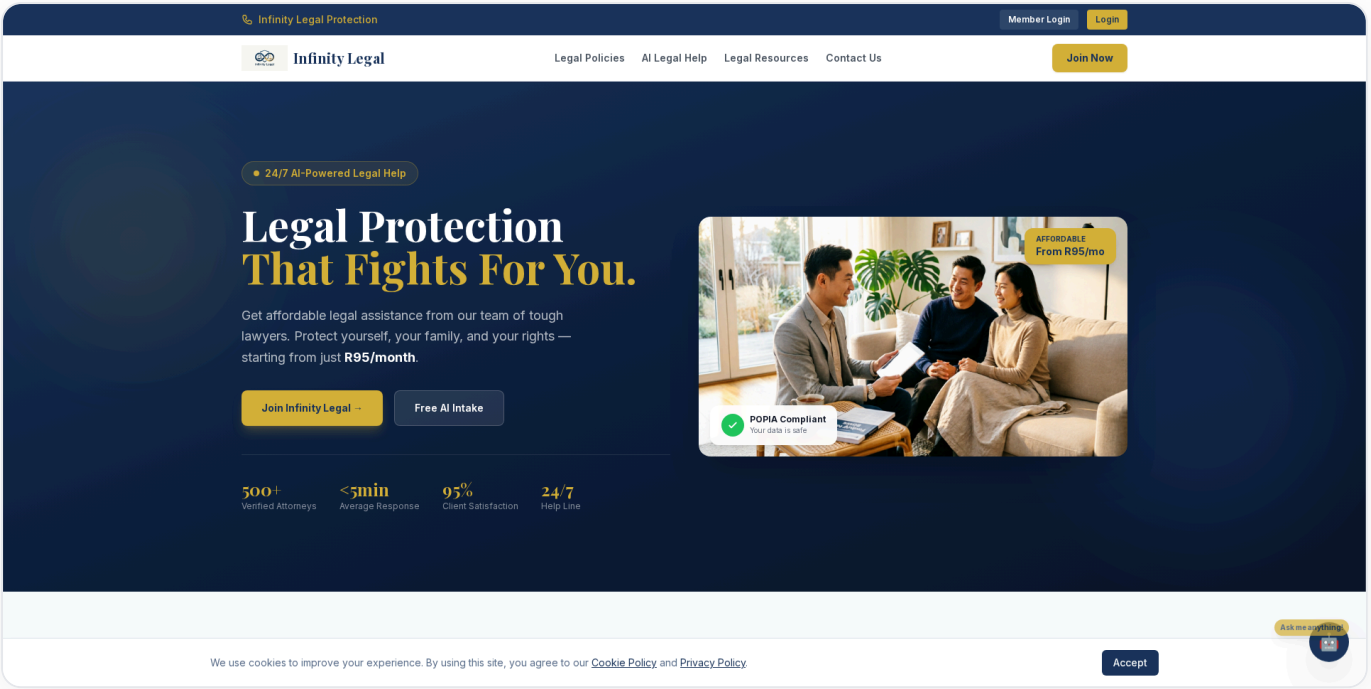
🔐 POPIA Compliant

End-to-end encryption, role-based access, audit logging, privilege protection. Built for SA legal requirements.

SECTION 02

Public Website — Homepage

Consumer-facing legal protection marketplace



Hero Section

"Legal Protection That Fights For You" — clear value proposition with R95/month pricing. AI-powered help, POPIA compliant badges. Trust stats: 500+ attorneys, <5min response, 95% satisfaction.

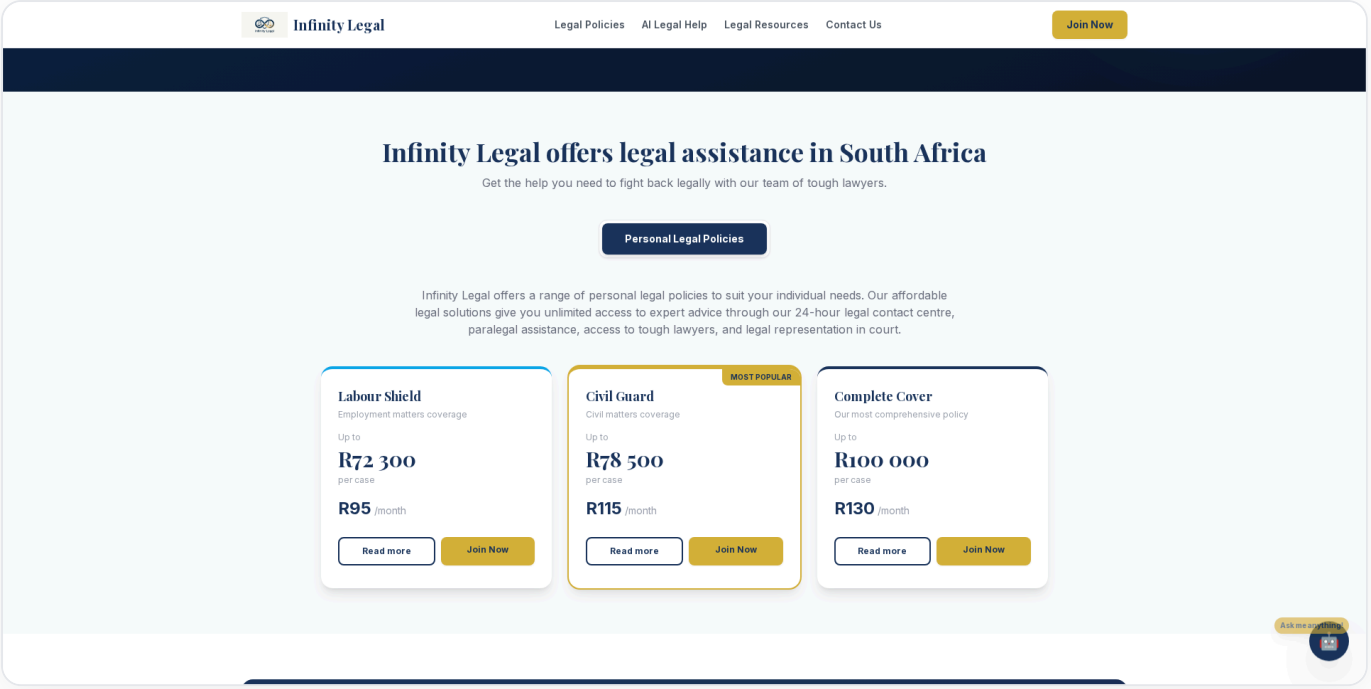
Navigation & CTAs

Legal Policies, AI Legal Help, Legal Resources, Contact Us. Dual CTAs: "Join Infinity Legal" and "Free AI Intake". Member Login for portal access.

SECTION 02 (CONT.)

Homepage — Features & Trust

Below-the-fold content showcasing platform capabilities



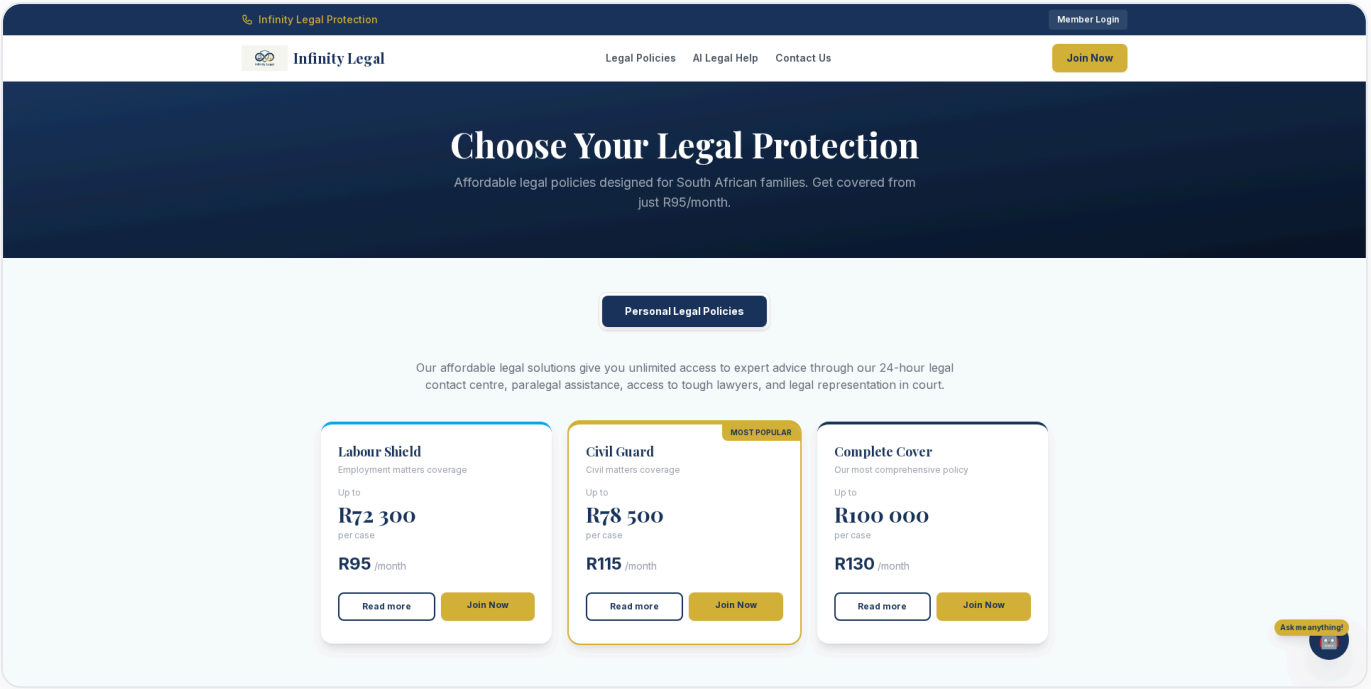
Designed to Outclass Scorpion.biz

The public website follows the Scorpion.biz model for legal protection plans but adds AI capabilities, modern design, and POPIA compliance that competitors lack. Exclusively focused on Legal Protection — no funeral plans, no distracting products.

SECTION 03

Pricing Plans

Three-tier legal protection: Labour Shield, Civil Guard, Complete Cover



Labour Shield — R95/mo

Employment matters coverage up to R72,300. CCMA representation, disciplinary hearings, retrenchment advice. Perfect for workers needing labour protection.

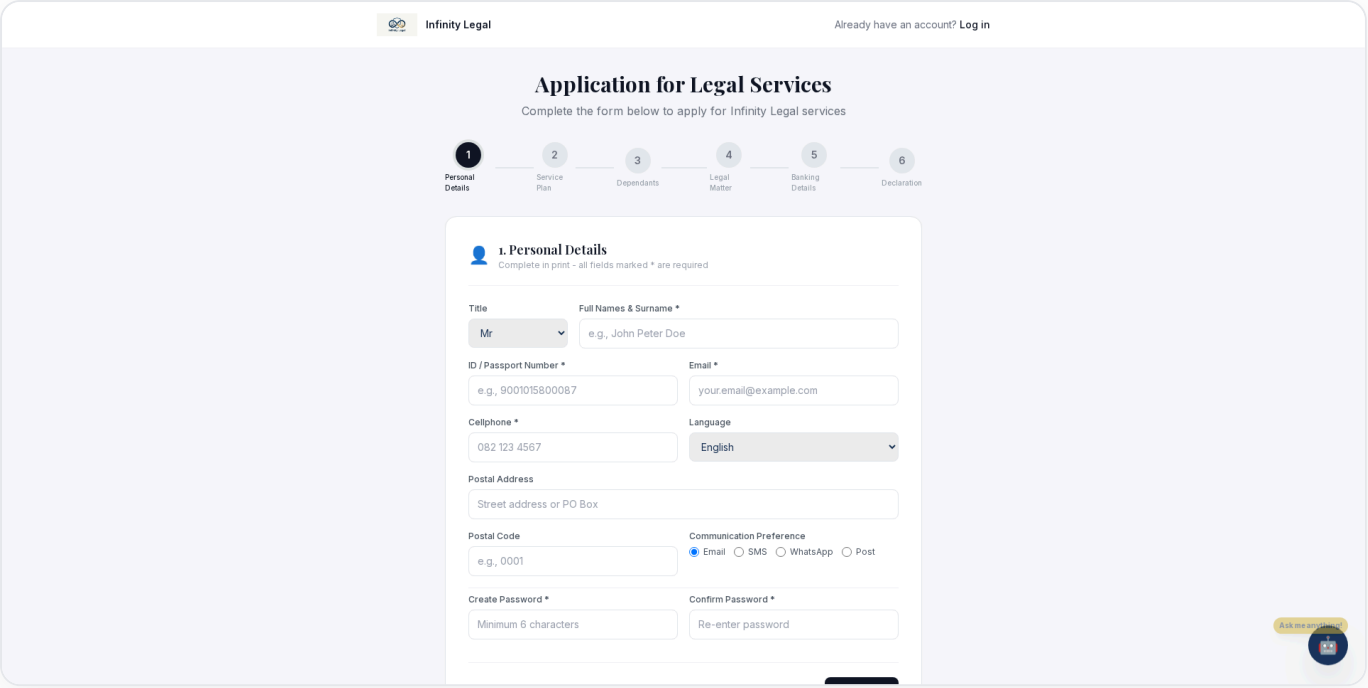
Civil Guard — R150/mo POPULAR

Civil matters coverage up to R78,500. Consumer disputes, debt recovery, property matters, contractual disputes. Best value for comprehensive protection.

SECTION 04

Member Application

Online join flow with plan selection and personal details



Plan Selection

Users select their preferred legal protection plan. Clear pricing displayed with coverage details. Seamless transition from pricing page.

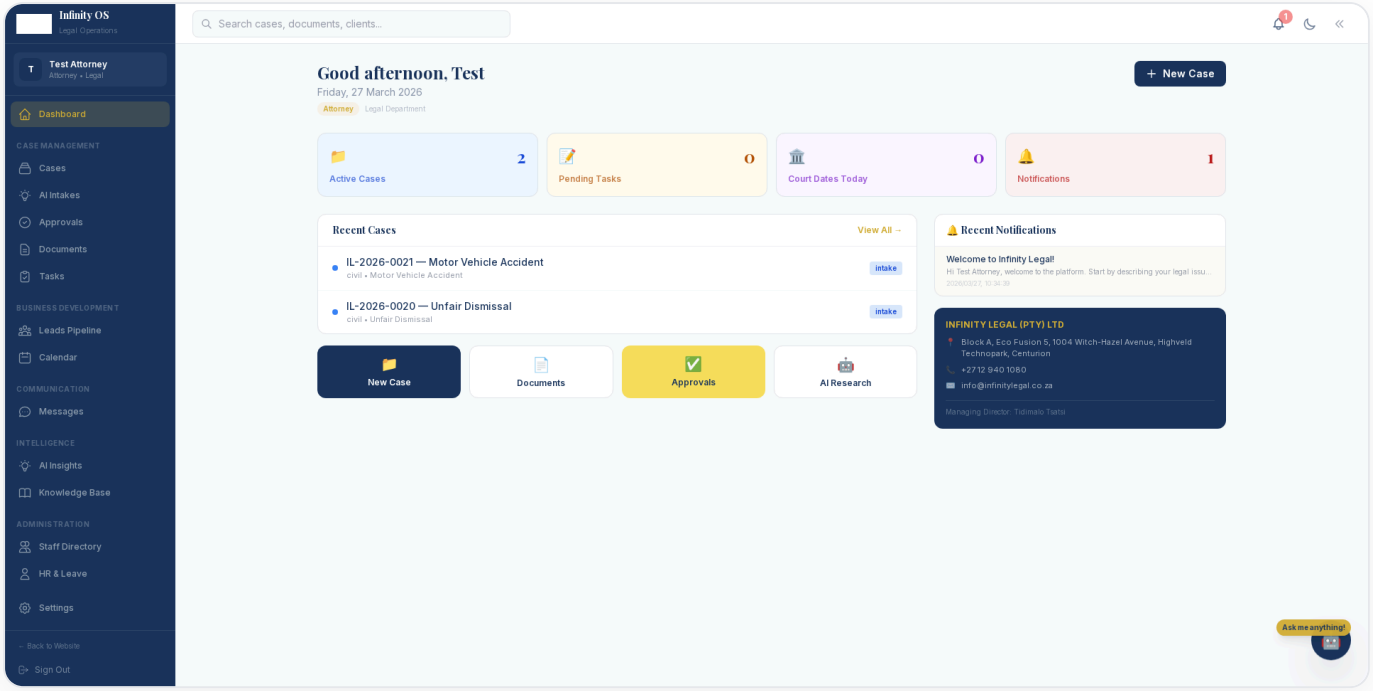
Application Form

Full name, email, phone, ID number, address. Terms acceptance. Secure submission. Account created automatically after signup.

SECTION 05

Staff Portal — Dashboard

Personalized workspace with real-time metrics and quick actions



At-a-Glance Metrics

Active Cases, Pending Tasks, Court Dates Today, Notifications. Role-aware greeting with department info. Recent cases with clickable status badges.

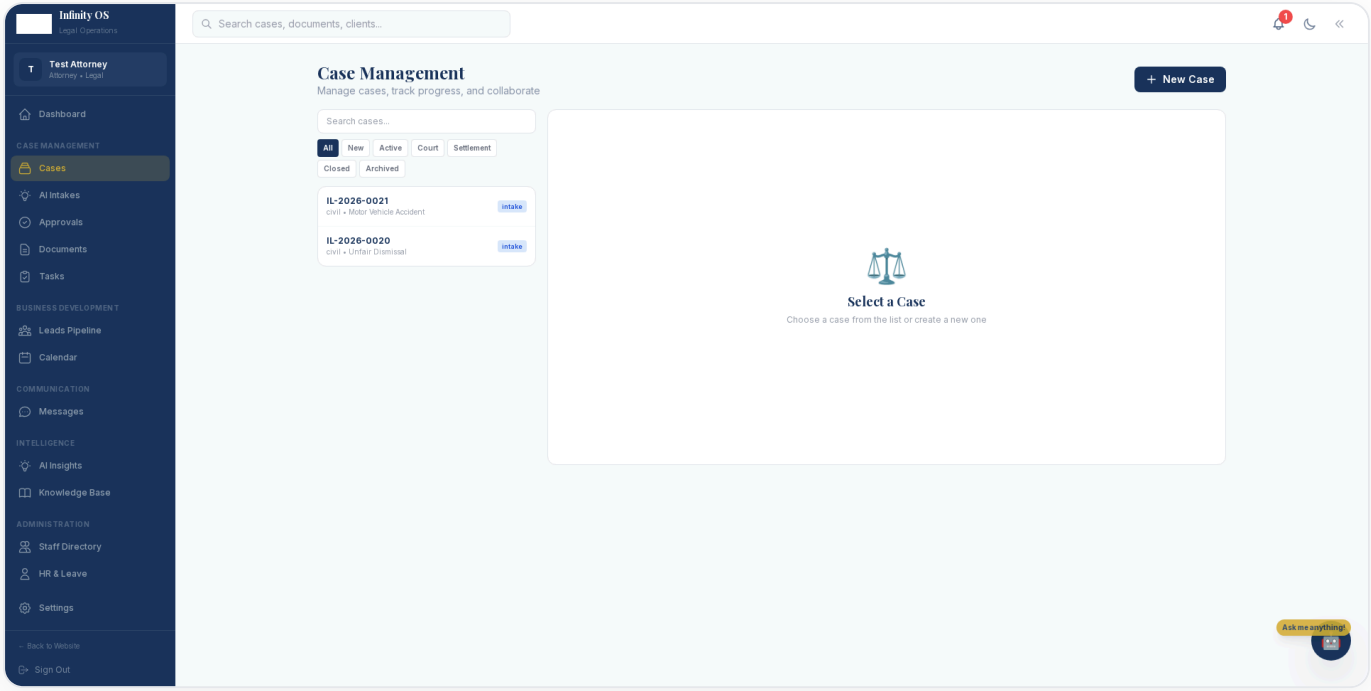
Quick Actions

New Case, Documents, Approvals, AI Research — one-click access. Company info panel with managing director details. Full sidebar navigation to all 15+ modules.

SECTION 06

Case Management

Full lifecycle: New → Active → Court → Settlement → Closed → Archived



Case Workspace

Tabbed interface: Timeline, Notes, Tasks, Messages, Billing, Details. Search & filter by status, type, number. Matter numbering: IL-2026-XXXX format.

🗄️ Case Archiving NEW

Closed cases can be archived to read-only. Auto-archive for cases closed >30 days. Archived tab in filter. Full audit trail with timeline entries preserved.

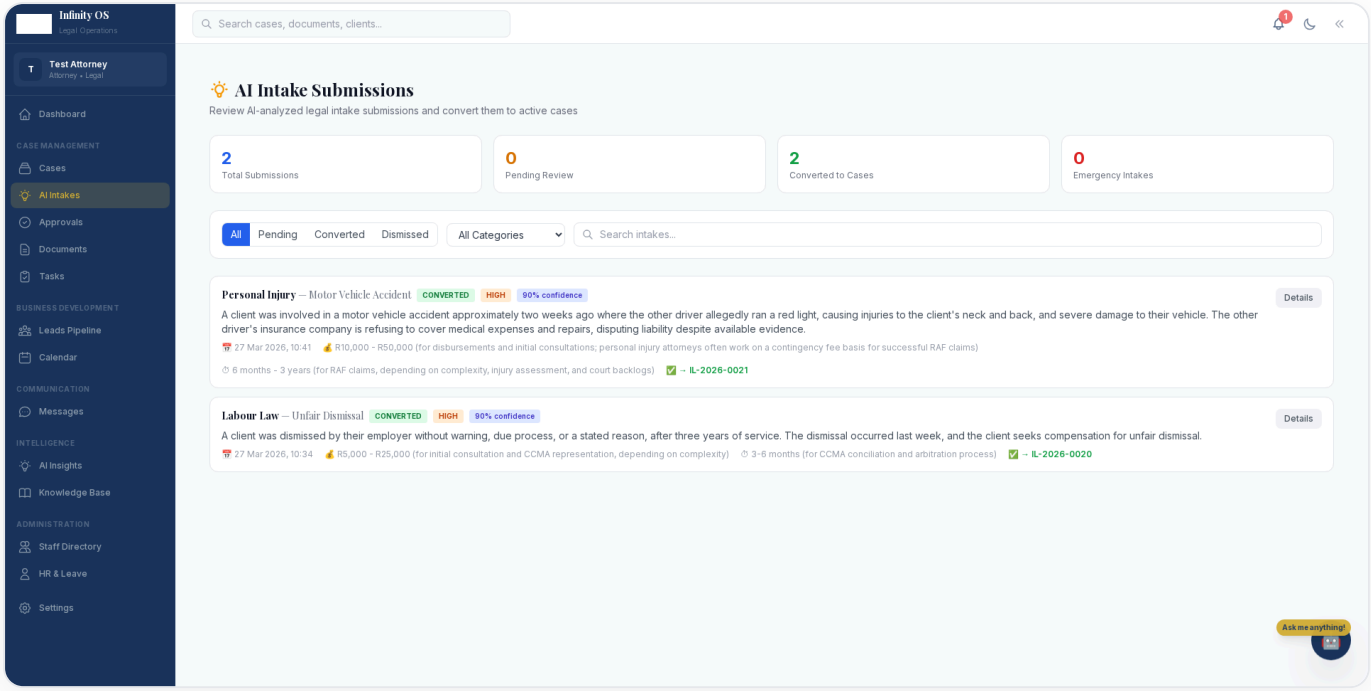
Prescription Period Tracking

SA prescription periods auto-calculated: CCMA 6mo, Unfair Dismissal 12mo, General 3yr, Property 30yr. Visual urgency badges warn when deadlines approach.

SECTION 07

AI Intake & Case Conversion

GPT-4o powered legal analysis with one-click case creation



🤖 AI Legal Analysis NEW

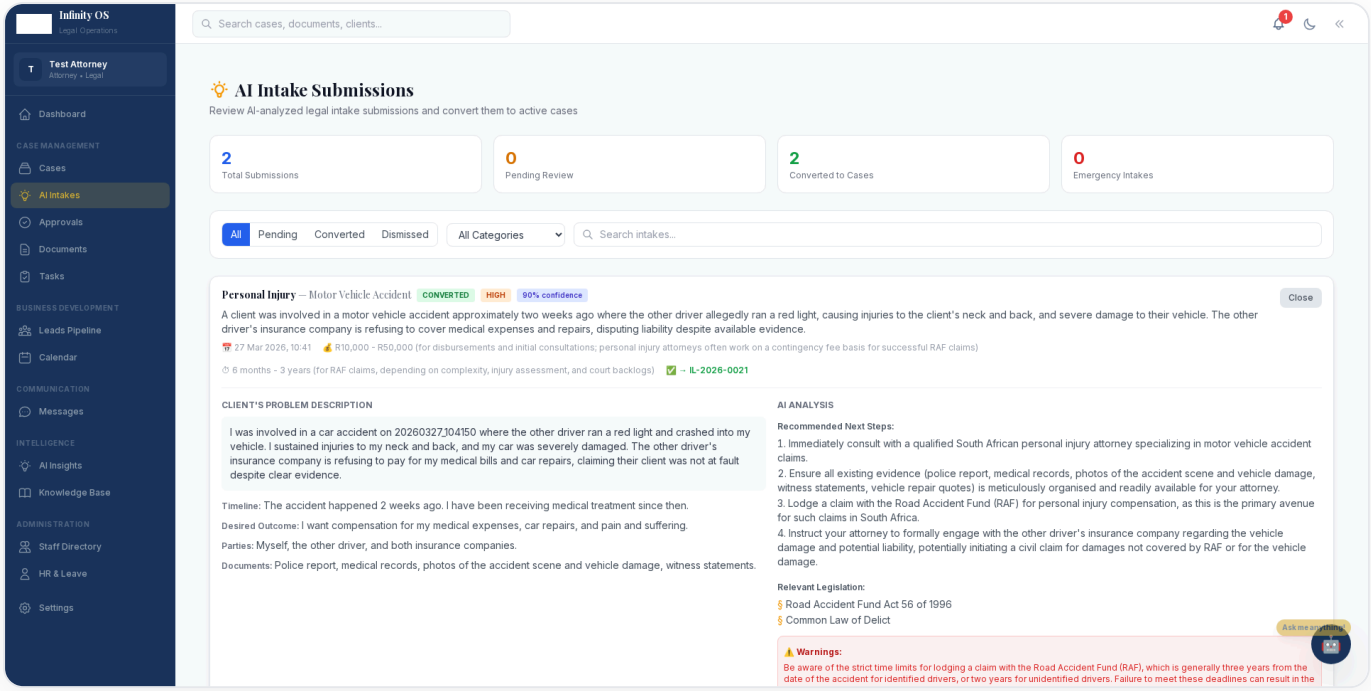
Client describes problem → AI categorizes (Labour, Criminal, Family, etc.), identifies urgency, suggests next steps, relevant SA legislation, cost estimates, and timeline.

Convert to Case NEW

Attorneys review AI analysis and convert intakes to active cases with one click. AI analysis auto-saved as case note. Duplicate protection prevents double conversion.

AI Intake — Detail View

Expanded view showing client problem and AI analysis side by side



Client's Problem

Original description, timeline, desired outcome, involved parties, and documents — exactly as submitted by the client through the public AI intake form.

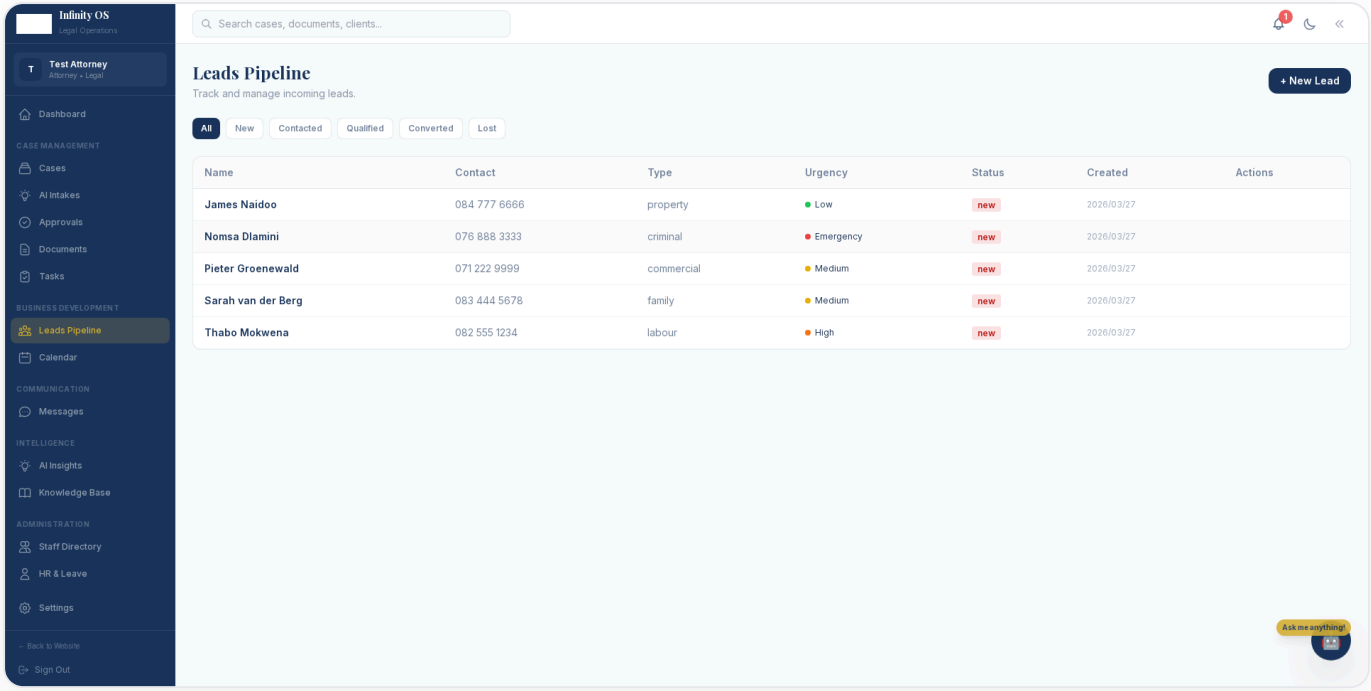
AI Analysis Panel

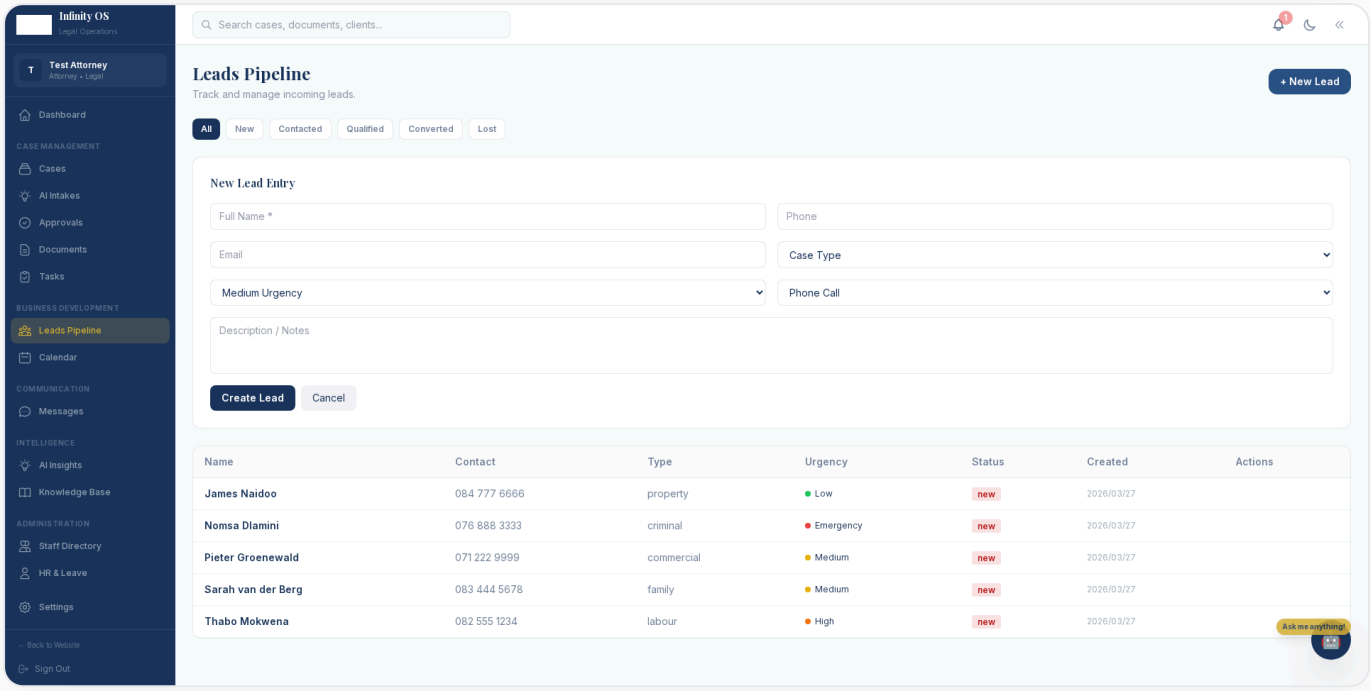
Recommended next steps (numbered), relevant SA legislation with section references, warnings about time limits or evidence preservation, cost and timeline estimates.

SECTION 08

Leads Pipeline

Full lead lifecycle: New → Contacted → Qualified → Converted → Lost





Lead Management

Create leads from web, referrals, walk-ins, phone calls. Track urgency (Emergency/High/Medium/Low), case type, source. Status filters and search.

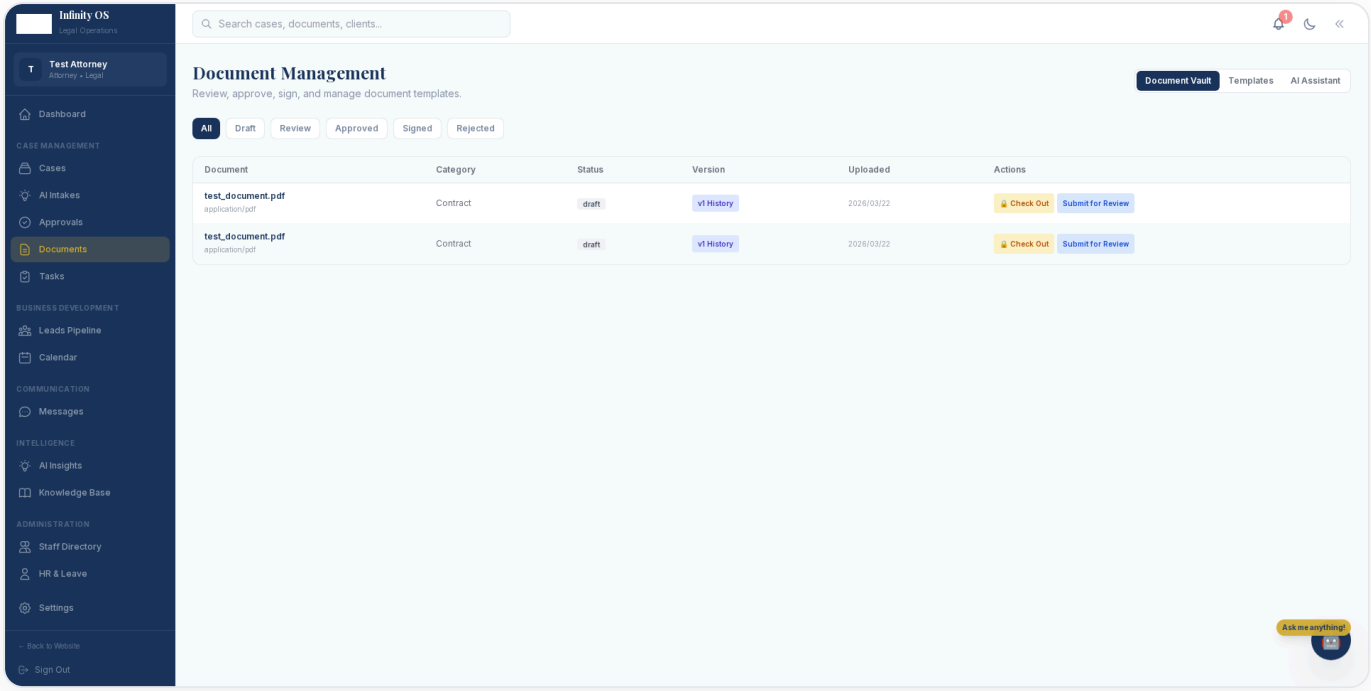
Pipeline Workflow

Qualify → Assign Paralegal (24hr SLA) → Strategy Review → Assign Officer (48hr SLA) → Convert to Case. Notifications at every stage.

SECTION 09

Document Management & Versioning

Enterprise-grade document workflow with version control



📋 Version History NEW

Full version tracking for every document. Upload new versions with change notes. Version history modal with timestamps and author attribution. Latest version highlighted.

🔒 Check-in / Check-out NEW

Lock documents while editing to prevent conflicts. 4-hour auto-expiry. Only lock holder can upload new versions. Visual lock status indicators.

📄 Workflow Approval

Draft → Review → Approved → Signed. Only Legal Officers can approve and sign. Paralegal UPL protection enforced automatically.

🤖 AI Document Assistant

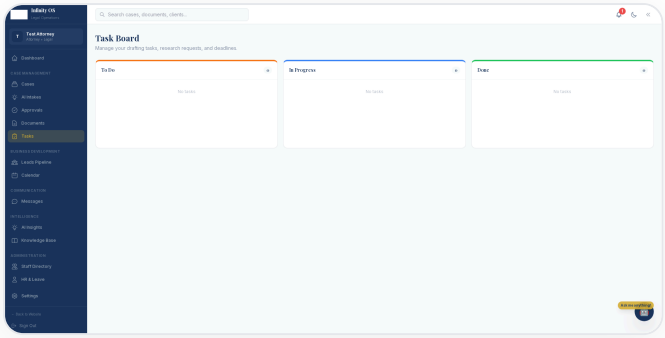
AI-powered document review, drafting suggestions, and legal research. Templates for common SA legal documents (contracts, pleadings, notices).

SECTION 10

Tasks, Calendar & Knowledge Base

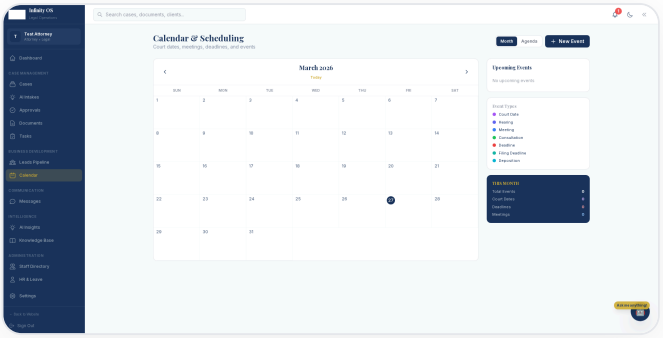
Supporting workflow modules for daily operations

📋 Task Management



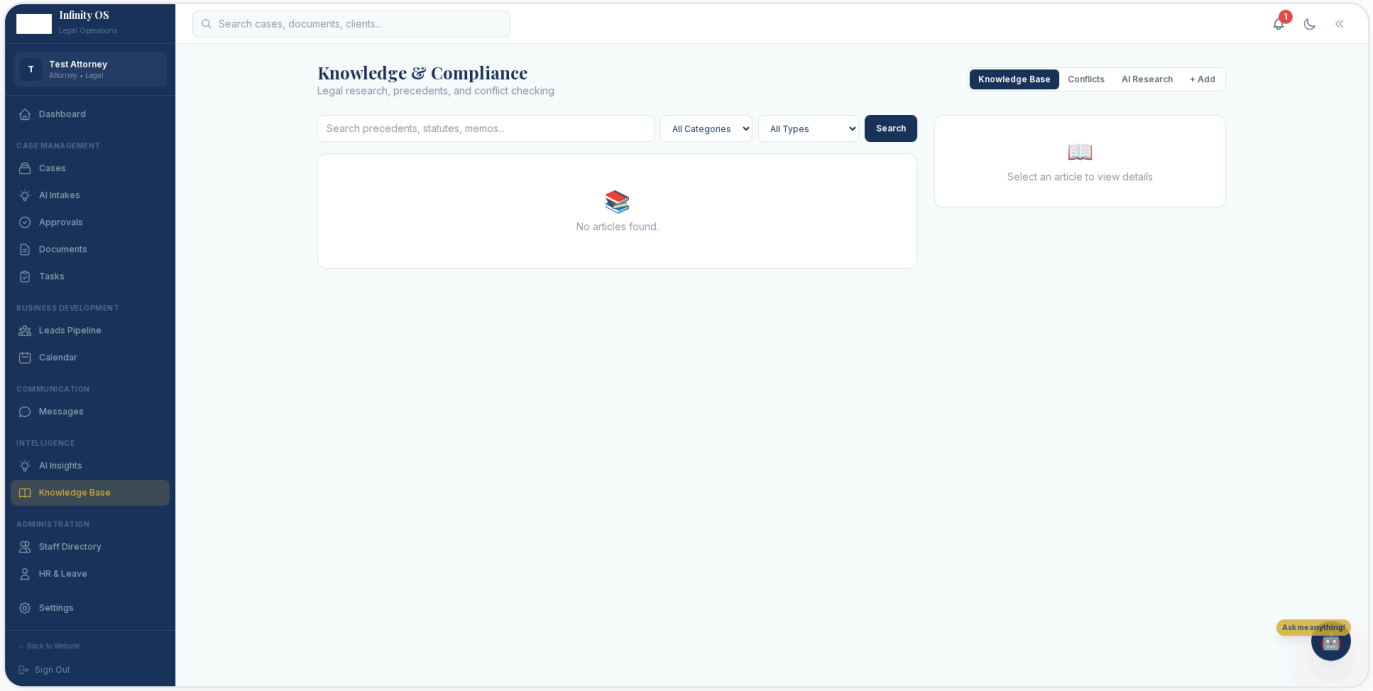
Create, assign, and track tasks linked to cases. Priority levels, due dates, status tracking. Filter by status or assignee.

📅 Calendar



Court dates, deadlines, meetings. Visual calendar with day/week/month views. Colour-coded by event type. Auto-syncs with case dates.

📚 Knowledge Base

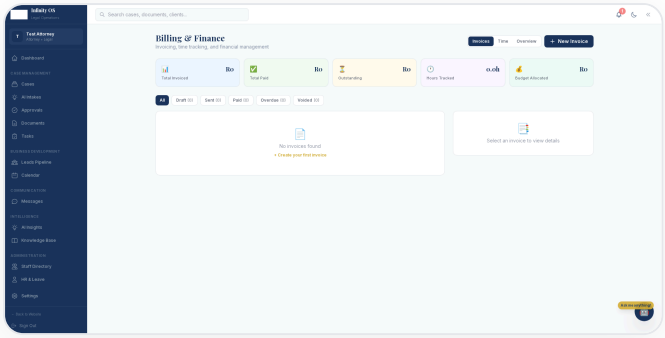


SECTION 11

Billing, HR & Reports

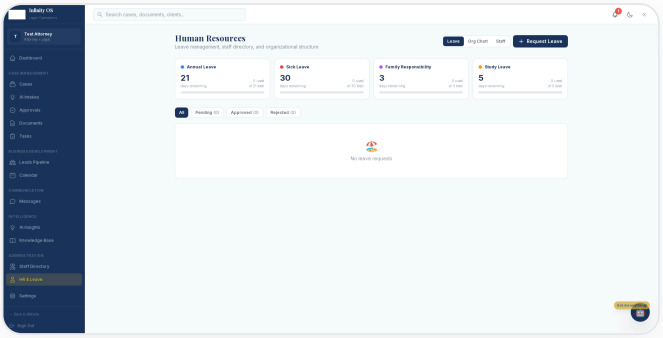
Enterprise operations modules

💰 Billing & Time Tracking



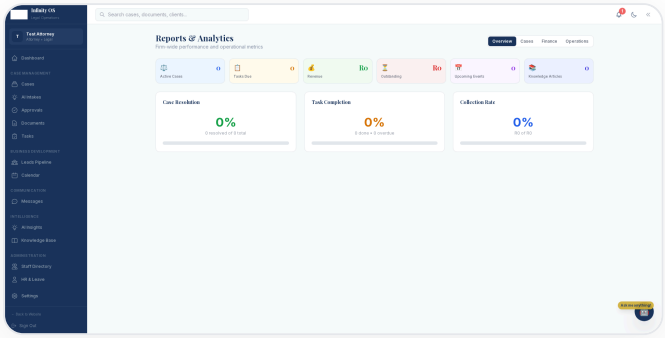
Time entries, billing rates, invoice generation. Track billable hours per case. Client billing summaries.

👥 HR Management



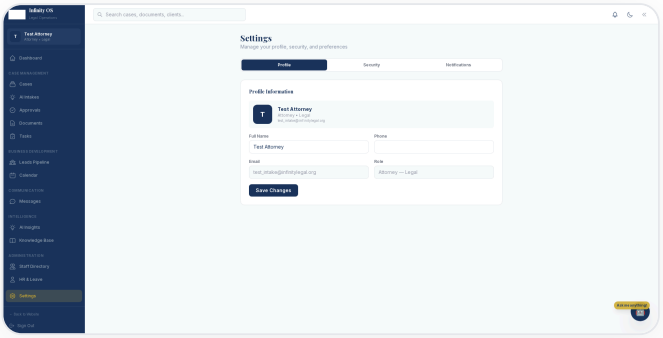
Staff directory, role management, department organisation. Leave tracking and staff performance metrics.

📊 Reports & Analytics



Case analytics, revenue tracking, performance dashboards. Export capabilities for management review.

⚙️ Settings



Profile management, notification preferences, security settings. Two-factor authentication support.

SECTION 12

Technical Architecture

Modern, scalable, production-ready technology stack

Next.js 14
App Router, SSR, API Routes

MongoDB
Documents, Leads, Intakes, Versions

Supabase
Auth, Users, Cases, RLS

GPT-4o
Legal Analysis, Document Assist

Tailwind CSS
Responsive, Dark Mode Ready

RBAC System
12+ Roles, 30+ Permissions

Security & Compliance

POPIA compliant data handling. Role-based access control with 12+ roles. Audit logging for every action. Middleware-enforced authentication. Encrypted data at rest and in transit.

Production Readiness

Health check API. SEO optimised (sitemap.xml, robots.txt, JSON-LD). Analytics tracking. Custom 404 page. Cookie consent. Responsive design for mobile & desktop.

Key API Endpoints (50+)

- **POST** `/api/intake/analyze — AI legal analysis`
- **GET** `/api/intakes — List AI intake submissions`
- **POST** `/api/intakes/{id}/convert — Convert intake to case`
- **GET** `/api/leads — Leads pipeline`
- **POST** `/api/documents/{id}/versions — Document versioning`
- **POST** `/api/documents/{id}/lock — Check-in/out`
- **POST** `/api/cases/archive — Case archiving`
- **GET** `/api/health — System health check`

SECTION 13

Roadmap & Next Steps

Current release highlights and upcoming features

✅ Delivered (Current Release)

- AI Intake → Case conversion with GPT-4o
- Document versioning & check-in/out
- Leads pipeline with full lifecycle
- Case archiving (read-only mode)
- 15+ portal modules fully functional
- Scorpion.biz competitive redesign
- RBAC with 12+ granular roles
- Production readiness (health, SEO, analytics)
- POPIA compliant architecture

🔵 Upcoming Features

- PayFast payment integration
- Client self-service portal
- Advanced reporting & analytics dashboard
- Email/SMS notification integration (SendGrid/Twilio)
- Mobile responsive portal enhancements
- Multi-language support (ZA official languages)
- E-signature integration
- Automated billing & invoicing
- Client feedback system
