AI-Powered Features

Three core AI integrations differentiate Infinity Legal from competitors like Scorpion.biz.

🤖

Infinity AI Chatbot

Status: LIVE

Floating chatbot widget on all public pages. Instant answers to policy questions, pricing, joining process, and urgent legal help. Quick question buttons + free-text input. Links to AI Intake and Join pages.

Scorpion equivalent: ScorpiBot — Our version is faster, smarter, and more helpful.

⚖️

AI Legal Intake

Status: LIVE

9 legal categories (Criminal, Family, Labour, Personal Injury, Property, Debt, Civil, Commercial, Other). Free-text problem description. AI analysis returns: subcategory, next steps, relevant SA legislation, cost estimates, timeline, POPIA compliance warnings.

Model: GPT-4o via Emergent LLM proxy

📄

AI Document Assistant

Status: LIVE

Draft legal documents, review contracts, summarize cases, suggest clauses. Available in the portal for authenticated staff. Generates professional-quality legal documents instantly.

Tested: Termination letters, case strategies, legal research

Verdict

Infinity Legal wins on **10 out of 15** comparison points. The AI-powered features (chatbot, intake, document assist, case insights) give Infinity Legal a significant technological advantage that Scorpion.biz cannot match with their manual-only processes.

Key differentiator: AI integration across the entire platform — from public-facing chatbot to internal case management — makes Infinity Legal the future of legal protection in South Africa.
